

REVERSE WALKOUT | RANCH | 3-BAY GARAGE

Set along an interior stretch of the neighborhood with expansive sightlines, **Lot 19** supports a reverse walk-out ranch design paired with a 3-bay garage. The home's elevated main level rises above the street to enhance privacy and outlook, while the lower level opens forward to capture natural light and everyday functionality. Together, these elements create a flexible lower floor, strong architectural presence, and a home that responds thoughtfully to its setting—illustrating how *Renegade* leverages site conditions to drive design.

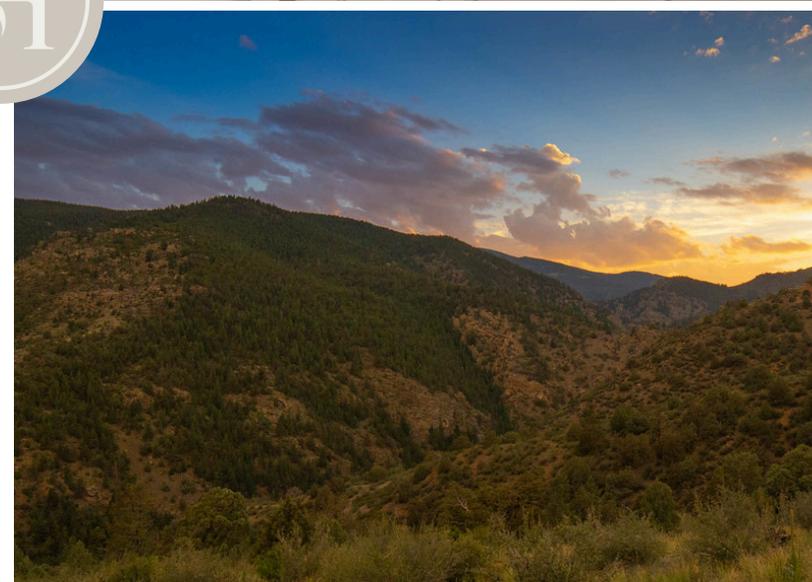

Each homesite at *Renegade* is oriented to capture sweeping views of North Table Mountain and Denver's Front Range. Plan types are intentionally designated for each site to ensure that views remain unobstructed for all of *Renegade's* residents, and individual plan designs may be customized.
