Two-story • 3 – 4 bedrooms • 3 baths • 2-car garage • 2,674 sq. ft.

You'll feel at home the moment you walk into this spacious, sumptuously-appointed home. Come in through the convenient owner's entry, where you can store coats and shoes, and drop off groceries in the extended walk-in pantry before even entering the gourmet kitchen, which opens to the expansive great-room. Upstairs you'll find a generously-sized master retreat with a spa-like bath and huge walk-in closet, along with a laundry room, and two additional bedrooms (which share a Jack-and-Jill bath). If desired, convert the main-floor study into a fourth bedroom.

- Stainless-steel Jenn-Air appliances standard
- Walk-out unfinished basement standard
- Fireplace in great-room standard, choose traditional or contemporary style
- Deck standard; extend living space outdoors with the covered deck option
- Take in remarkable views from optional deck off of master bedroom
- Create master retreat by adding optional fireplace in master bedroom

Two-story • 3 – 5 bedrooms • 3 – 4 baths • 2-car garage • 2,867 sq.

Make the most of this family-friendly plan by tailoring it to suit your lifestyle. Would you like to have a bonus room/loft on the second floor to use as a craft space or second family room, or would a fourth bedroom be the ideal use of space? What about the main-floor study and powder bath—would that work better as a fourth or fifth bedroom and a  $\frac{3}{4}$  bath? The choice is yours in this flexible plan! Along with our standard gourmet kitchen and spacious living areas, you'll appreciate some of the smaller touches, too, such as the windows in the over-sized master walk-in closet (not to mention the optional island in the closet!).

- Sizable walk-in pantry
- Optional built-in bench at owner's entry
- Deck standard; consider covered deck options to extend living space outdoors
- Walk-out unfinished basement with 9' ceilings standard
- Open handrail at stairs standard, with standard wood or optional metal balusters
- Optional fireplace in master bedroom lends ambiance and character
- Secondary bath on second floor has two sinks—perfect for families or guests

Head upstairs to find the gourmet kitchen, open great-room, tranquil master retreat, bedroom #2, and flex space (bedroom #4 or study).
